

Nate Flasher

Dr. Stanley

17 March 2020

Project Proposal Draft

Project Idea: Research "Style" Paper

Topic: How does the art and the practice of cyber security best glorify our living God?

Length: 10 - 20 pages

Amount of resources - 10ish

Format: Probably APA

Resources so far:

1. Dr. Stanley's Essay about Faith and cybersecurity integrated
2. <https://www.letu.edu/academics/arts-and-sciences/story-cybersecurity-glyn-gowing.html>
3. <https://www.christianpost.com/sponsored/hacking-expert-reveals-why-ethics-are-so-important-to-cybersecurity-career.html>

Topics/Deliverables to be addressed in the essay:

1. In what way was there security provided in the Bible? Compare that to security today.
2. How is the practice of cybersecurity a reflection of God's qualities or character?
3. How is cybersecurity related to sin?
4. What would be Jesus' response to attacking and cybersecurity if He was here today?
5. Ethical issues (developing software that could kill someone, intentionally or not, bombs, etc)?

Timeline: 6 milestones -

1. By March 10th, have 3 sources read, understood, and evaluated.

2. By March 20th (Friday before break), have 6 sources read, understood, and evaluated.
3. By April 10th, have all sources read, understood, and evaluated.
4. By March 15th, have 5 pages complete.
5. By April 20th, have my paper complete.
6. By April 22nd, have my paper reviewed and edited multiple times.
